Spring 2016 Rhizome and Plant Orders

All our hops have been grown organically over the last 4 years at our isolated northern hopyard. Your rhizomes will be harvested and packaged to ensure that they arrive in good growing condition. Our northern grown hops are guaranteed to be clean stock, naturally.

'Hop in a Box' kit. Perfect for first time growers!: This kit will supply you everything you need to get your baby hop up and growing! Perfect for the hobbyist who wants to try a couple of varieties of hops and wants to make sure that their hop is growing well by the May long weekend. The kit includes an established planted rhizome in a 1 gallon pot with a 14ft cordage plus a hop anchor complete for trellising and instructions for planting.

Organically grown

Our hops are grown in sandy loam soil farmed organically for over 50 years, without use of pesticides or synthetic fertilizers. We adhere to Canadian Organic Standards however we are not certified organic.

Quality guarantee

Are the hop rhizomes guaranteed to be alive and of the variety I ordered? Yes! All hop rhizomes are guaranteed to be viable and the variety you order. Any rhizomes identified as not viable or of the variety ordered will be replaced free of charge.

Disease-free guarantee

Our northern grown hops are guaranteed to be clean stock, naturally. Northern Girls Hopyard is located over 900 kms from the next nearest commercial hop yard. Our isolation from primary hop growing areas means we are isolated from common hops diseases. To preserve our disease free condition, all hops imported to our farm are quarantined for a full growing season before planting in the hop yard. We guarantee all rhizomes and plants as disease free on delivery.
